CAMBRIDGESHIRE COACHING SURVEY

Dear Archer,

As part of the plan to improve coaching in Cambridgeshire and engage all archers in the process, I would like to canvass the opinion of all senior archers within the county.

I would like to hear from adult archers (Juniors will be dealt with separately) on their need for coaching. I would appreciate it if you could share your opinions on what is needed.

Your feedback can be as general or specific as you wish. Indeed, I would be very happy to hear from you about your specific needs as a developing archer. I will collate the information as best as possible and will hopefully find specifics to flesh out a number of common themes (mental, technical, equipment, physical preparation etc.). With your help, we can tailor future coaching sessions/seminars to meet your needs.

The aim is to arrange coaching at all levels based on the information received and the more information provided, the better the coaching group will be able to meet your needs. Please bear in mind that not all needs will be met in the short/medium term, but it is important to establish a baseline from which we can improve the coaching across the county.

Please complete the attached form and return it to me by e-mail.

Best Wishes,

Colin Crowley
